SALES@ACEGLASS.COM

March 20, 2020

In response to New Jersey Governor Murphy's Executive Order 107, Ace Glass employees that can work from home will do so. Employees that need to be physically present in our manufacturing facility to continue to fulfill the needs of our customers will maintain distancing and sanitation rules to help prevent the spread of COVID-19.

To our customers, Ace Glass has been planning for this eventuality for some time and will continue to take orders, fulfill orders and work with researchers in the design and manufacture of specialty laboratory glassware as needed to fight COVID-19. As some disruption is inevitable when we all can't be present at our Vineland New Jersey facility, please be patient.

Thank you,

Jeffrey B. Kramme
President
Ace Glass Inc.
